A Queer Washington Murder.

#### A WORLD'S RECORD.

That is What One of the U. S. War Ves sels Completed Today.

NEW YORK Aug. 2.-It is one of the ships of the United States navy that has made a world's record. When the U.S. S. Columbia arrived at quarantine this mornat 10.35 a. m. from Southampton, the most memorial run at sca ever made by a war ship had been accomplished. The time 23 hours and 49 minutes. The hourly speed averaged 18.41 knots.

The whole run was made by the Columbia under natural draught, which fact makes the trip all the more remarkable. This war vessel has proven herself the fastest fighting vessel belonging to any navy in the world today.

Speed combined with power is what the naval architects of the world have been aiming at for the past few years in all the world's great navies. Now that the United States has proven that the best model is in her own navy, naval authorities express the greatest delight and

### BIG YACHTS ALL TOGETHER.

Defender, Vigilant, Jubilee and Volunteer Start in a Race Today

[Special Dispatch to the Transcript.] NEWPORT, R. I., Aug. 2.—The big yachts are all off in the great race for the Goelet cup today. It is one of the biggest events in the cruise of the New York yacht club. The start was made this forencon at 11.29, when the wind was blowing fifteen miles an hour.

The interest in this contest all centers in the single-masted boats in which class the Defender, Vigilant, Jubilee and Volunteer started.

AT 12.30 O'CLOCK. BRENTON'S POINT, 12.30 p. m.-All the yachts are completely shut out from view by a thick haze. It is impossible to learn their positions. The crew of the Voluntee clearly outclassed those of both the Defender and Vigilant in manipulating for a start. Although this is the first race of the season in which the Volunteer's crew have taken part, they easily both ered the Defender while the Vigilant barely succeeded in crossing the line within the time limit.

BRETON POINT, 130 p. m .- Every boat of the fleet is still out of sight and the wind is steadily increasing,

AT 1.30 O'CLOCK.

### LYNN'S POSSIBLE LOSS.

The General Electric Plant There Likely to be Removed,

[Special Dispatch to the Transcript ] LYNN, Mass., Aug. 2.-The reported plan of concentration of the three plants of the General Electric company at one central point has caused much uneasiness among West Lynn residents. The removal of the plant in this city would be a severe blow to the business interests of the place. There is no doubt that the officials of the company are considering the advisability of uniting the entire plant at one point. But whether at the new industrial center of Depew, N. Y., or Schenectady, N. Y., is not definitely

### INDIANS HAVE RETREATED.

Reliable Information From Jackson's Holo to That Effect.

[Special Dispatch to the Transcript.] WASHINGTON, Aug. 2.—Latest advices from the Indians are to the effect that the

had been no fighting and that there was no desire on their part to fight. The scare seems to be over and the settlers understand that the Indians are returning to their reservation to avoid United States

### TAILORS SUCCESSPUL.

The Contractors Sign the Agreement and Thousands Return to Work.

[Special Dispatch to the Transcript.] NEW YORK, Aug., 2.-The back bone of the tailors strike is broken. The majority of contractors in the city have signed the new agreement proposed by the strikers and about 7,000 strikers in

[Special Dispatch to the Transcript.] Washington, Aug. 2.-About noon today the daughter of General Flagler, chief of ordnance, U. S. A., shot and killed a boy who she claimed was stealing fruit from her father's garden in this city. The young woman was arrested and held by the police.

### SPAIN'S TYRANNY.

Official Decree by Which the Press is to Muzzled.

[Special Dispatch to The Transcript.] MADRID, Aug. 2.—Spain does not intend that the world shall know about what is going on in Cuba. One of the city papers here today has published an authoritative dispatch from Havana which says a decree has been published in the official Gazette prohibiting the publication of any war news that has not been authorized and consented to by the government censors, It is known that the last few days have been uneventful in Cuba.

### RUBBER COMPANY TROUBLES.

McGowan Seems to be the Cause, Receivers Wanted.

[Special Dispatch to the Transcript.] TRENTON, N. J., Aug. 2.-An application was filed today for the appointment of a receiver for Trenton Rubber company and an order issued to show cause who receiver should not be appointed. The application alleges that several of the concerns notes have gone to protest, that the company has promissory notes outstanding to the amount of \$200,000 and accounts pavamade by the vessel in crossing was 6 days | ble amounting to \$100,000 more, and that the company is insolvent. Frank A. McGowan, President and general manager of the company is out of town. It is alleged that a large portion of the capital stock of \$200,000, which was held by McGowan, has been turned over by him to creditors and backers in this city and elsewhere. It is understood that an application is to be made tomorrow for a receiver for the Eastern Rubber company of which McGowan also is head.

### TRAMPS SLAUGHTERED.

A Dozen of Them in a Freight Car When

[Special dispatch to the Transcript.] CANTON, O., Aug. 2.-A fatal wreck ocpoint a heavy freight train broke in two, and the rear end crashed into the first section smashing ten cars to pieces.

One of the cars was a furniture car and in it were a dozen tramps. This car was literally smashed into kindling wood, When the trainmen came up they were horrifled to see arms and legs of human beings sticking out from all parts of the vreckage. Four men were taken out badly mangled. Two of them died almost immediately and the others expired on the way to the hospital. All the others are badly injured, some of them may die.

### STAGE HELD UP.

[Special dispatch to the Transcript.] MERCED, Cal., Aug. 2.—There was an old-time stage coach robbery committed vesterday. The Coulterville stage was held up near that city yesterday afternoon by a lone highwayman, who wore a mask. Only one passenger contributed. He gave all he had, \$10. Several packages of coin were taken from the box.

Talk of Building a Modern Track on the Fair Grounds.

TO BE BUILT BY WHEELMEN.

If it Will Not Make the Grounds In convenient the Society Would be Glad to Have it There.

same, provided the Hoosac Valley Agri-

was seen this morning, and said he should be glad to have such a track on the grounds, but that it was uncertain as to whether the society could afford to give the space that such a track would occupy. The track would have to be laid within the half mile one and it is proferred that it should be a third of a mile in circumference and nearly a circle.

The grounds of the society are not large enough so but that it is necessary to allow teams to drive over and within the circle of the half mile track and the driving of teams over such a track as must be laid for wheel racing would be ruinous. It might be that a bridge, which could be easily raised and lowered could be built over the bicycle track to allow the passage of teams.

A quarter mile track has been considered. It would take up , less space, but would be more difficult to build and might be a little slower on account of the sharper curve.

The executive committee of the society will meet Wednesday, August 7, when a decision in regard to the matter will be reached. The society does not feel able to build such a track itself at present, but it would be glad to have such a track built, provided it would not make the grounds inconvenient to teams. The ball ground would be in the centre of the irner track and that must be considered.

The cost of laying such a track would be about \$300. It would have all modern improvements and would be greatly uppreciated by wheelmen.

Improvements on the Ground. The leveling of the center of the half mile track will be completed this week and will be a great improvement. The \$500 which was appropriated for this purpose has gone much farther than was expected and all the center of the track will be made perfectly uniform. The southern entrance to the center of the track will be moved 200 feet to the east, exactly opposite the entrance to the barns, avoiding, to a great extent, the danger of crossing the track while trotters are being exereised, for when the grounds are crowded by persons or teame in impossible to see a horse coming around the curve. The mud hole outside of and just east of the former southern entrance to the track has been filled up and many like improvements have been made.

### A PLEASANT VACATION.

A Transcript Man Out on One of Boston's Fancy Yachts,

S. S. Joy of the TRANSCRIPT returned this morning from a two weeks' outing, being most of the time a guest of Albert Geiger, Jr., of the Boston Yacht club, owner of the yacht "Vesta," one of staun. chest and most beautiful yachts belonging to the squadron. It is fitted with ail modern improvements and is finished in macured on the Pittsburg, Fort, Wayne & hogany. The trips made were to Bass Chicago railroad near this city early this morning. At what is known as Stark's sidesseveral out to sea. Commodore Geiger siding there is a heavy grade, and at this is a thorough sailor and is considered one of the best sailing masters that go out of Boston harbor. He enjoys the sport thoroughly. The meals served on hoard the vessel are equal to those at the most pretentious shore houses. It was one of the pleasantest vacation outings that Mr. Joy has had in recent years.

### THE HIBERNIAN FAIR.

The Committee of Arrangements Makes Good Headway.

The committee appointed to arrange for the fair of Division 4, A. O. H., met last night and performed much work. Martin Burns was chosen chairman of the committee and Edward Boylan secretary. It was decided to hold the fair the latter part of October or early in November, Martin Burns, W. O'Donnell and T. Whalen were chosen a committee to arrange for a hall in which to hold the fair. It was decided to find four popular young persons to enter into a contest for a piano Martin Burns, P. Kieley, F. Doherty and T. Whalen were chosen a committee to arrange for this contest and to communicate with Mr. Larkin and others about a piano. Dennis Flaherty, M. J. Kelly, W. O'Donnell, Frank Doherty and Edward Boylon were chosen a committee to bring in a list of articles on which every holder of a season ticket will have a chance. Patrick Kieley and Thomas Whaler were chosen a committee to arrange for music. They will confer with the Continental Drum corps, Clapp's band and other organizations. M. F. Mc Carthy was chosen chairman of the entertainment committee. Some suggested a contest between the local saloon keepers for a silver urn, but that matter was de ferred to the next meeting to be held in two weeks. The fair will last for ten nights and each night there will be an en tertainment by some visiting society besides other attractions. The division is arranging for a very fine fair,

### POLICE ACTIVITY,

Numerous Arrests During the Past Month Somewhat Remarkable.

The police have been doing good work the past month. During it they made 122 arrests and seven were made by other officers. In June they made ninety-eight arrests and seven were made by other of ficers. In July, one year ago, only fifty-two arrests were made. The number of arrests during the month closed is some-what remarkable. Many of them were for drunkenness and arose from the fact that numerous strangers are visiting the

#### GENTLY SUGGESTIVE.

A Brother Editor Tells Why Full Names Should be Used

SPRINGFIELD, Mass., August 1, 1895.

Editor Transcript:

DEAR SIR:-I have always contended that if a man had a name, it ought to be used, rather than allowing him to maquerade under a combination of initial letters. A case in point occurs in your yesterday's weekly edition, which has just come to this office. Appreciative nention is made of the death of Mrs. Amelia B. Cook, "wife of A. R. Cook." Who is A. R. Cook? Is he Aivert R., Alfred R., Andrew R. or Ansel R? other municipal purposes. Phose who know personally the particular may be much in doubt. For explanation let me say that if the individual is Ause known a number of A. R. Cooks who were entirely different persons, and it would be embarrasing to write a letter of sympathy and find that it had reached some who had never heard of me, or to address my sometime comrade of the march and find that he was not at all the bereaved person. I looked the paper through a half-dozen times to see if under the "Deaths" heading the name might not be given more fully, but conclude they have been left out, as they do not appear.

Please do not regard this as fault-finding, it is intended to be only gently suggestive. Very sincerely yours,

JAMES L. BOWEN,

Ass't Editor, Paper World. [6d,—Finding the directory gave the name A. R. Cook and that on the "return" held by the undertaker the name was A. R. Cook we caused inquiry to be made of A. W. Fulton, who is an authority on all matters pertaining to the war and he produced evidence that A. R. Cook is none other than the Ansel R. Cook who was Mrs Bowen's tentmate. Perhaps Mr. Bowen would be interested to know that Mr. Cook is suffering from a chronic difficulty of the knee caused by a kick from a horse about a year ago. He is dis-

### ANOTHER INNOVATION.

A Hot Waffle Man Strikes the Town and Begins Business.

C. F. Procurator, better known as "Dutch Charlie the Waffle Man," arrived in town yesterday from Northampton and has been doing a rushing business on the streets today. He has a wagon fitted for the business and bakes waffles as he drives along, selling them while they are hot. He makes a stop now and then and supplies the trade of the vicinity and then moves on. He heats his oven with charcoal and can turn out wastles at the rate of 144 in five minutes. The establishment is a novelty here and a good business has been done today. It is the proprietor's intenton to work on the business streets in the forenoon and to drive about town and supply families with his goods in the afternoon. He says he shall also be out in the ey ming if the selectmen will grant him a stand on the street.

Mr. Procurator says he has been engaged in this business for twenty-two years and that he is now running twenty-two wagons in New York state, Connecticut and Massachusetta. He was at the World's fair in Chicago and is widely known. He drives a handsome gray horse and his whole outfit shows thrift and prosperity. He has an assistant with him and both have been kept very busy today everybody being anxious to try "the latest." The wagon here is No. 16 and the proprietor says it will be out every day rain or shine.

### A GREAT PROJECT.

To Harness the Potomac River In the Interests of Washington.

For many years there has been talk of utilizing the great water power at the Great falls of the Potomac. Recently private owners of land and water rights there have taken steps looking to a dovelopment of the vast power nature has provided, and at the same time officials of the government have been investigating the subject with a view to having the government undertake the work, the power developed to be utilized in electrically lighting Washington and for A plan has been made, however, for

elves here.

A wealthy northern capitalist is reported as actively engaged in perfecting reliminary preparations for beginning the development of this enterprise. It is said the work contemplated will require not less than \$2,500,000, and that sum may be quadrupled before a satisfactory result is consummated. The figure named as the minimum cost is founded apen a purely superficial estimate.— Washington Star.

#### AN UP TO DATE FLORIDIAN With a Pistol She Enforced Respect For

"New woman" figured in a sensa tional scene at West Palm Beach, Fla., recently. Pistol in haud, Mrs. Nelson Young asserted the right of a woman to wear bloomers without being made the subject of unpleasant comment. The lady, who is young, is an expert on the wheel and every thy is seen "scorching" on the shell road that winds about Lake Worth.

Mrs. Young rode attired in an ordi-

pary costume until the other afternoon, when the villagers were surprised to see her go whizzing through the streets garbed in up to date bloomer costume Mrs. Young looked very mannish in her close fitting bloomers, but everybody admired her save John McDonald, who spoke sneeringly of the modesty of a woman who appeared in such a costume. When the lady heard of McDonald's comment, she became angry, and bloomer clad she wheeled to his store and entered. She immediately covered McDonald with a revolver and demanded an apology. The pistol looked ugly, and the lady made McDonald apologize. He wrote a card for the local papers retracting all unpleasant comment. Then Mrs. Young rode gayly away. The affair has caused a great sensation owing to the prominence of the parties and to the fact that Mr. McDonald is a church deacon.—Cincinnati Enquirer. Five Tons of Giant Powder at One Blast.

Engineer Russell, in charge of the construction of the Lower Otay dam, a part of the Mount Tecarte water system, has a force at work on what will be the largest blast ever shot in southern California. Half a million tons of rock will be torn from the face of the hill below the dam and deposited in the creek bed. The rocky cliff where the explosion is to take place is 100 feet in height and will be entirely removed.

Back from the cliff about 100 feet a shaft is being sank 80 feet in depth. In two drills will be run 30 length, at the 50 foot level and at the bottom, making a 20 foot tunnel in the side of the hill. In the ends of these drifts and in the shaft will be placed five tons of giant powder and a large quantity of Judson powder, the whole thing to be exploded at once by electricity. The workmen have reached 50 feet and are now drifting. It is expected that the big blast will be ready to be exploded Aug. 15. Enough rock will be made available to complete the dam .-San Francisco Chronicle.

### The Bible General Conference.

D. L. Moody, the evangelist, has issued a call to Christian workers to attend the thirteenth Bible general conference, which will meet at Northfield, Mass., from Aug. 3 to 15 next. Among the speakers expected are the Rev. Prebendery H. W. Webb-Peploe, one of the preachers at St. Paul's cathedral, London; the Rev. R. A. Torrey, superintendent of Bible institute. Chicago: the Rev. H. C. Mabie, Boston; the Rev. A. T. Pierson, Major D. W. Whittle and Dr. Andrew Murray of South Africa. The music will be in charge of Ira D. Sankey and George C. Stebbins. -Philadelphia Press.

"Winnie" Davis Writes a Novel. Variua Anne Jefferson Davis, surnamed the "Daughter of the Confederhas written a novel by the title of "The Veiled Doctor." The action takes place in Virginia before the war and is of a highly emotional character. Miss Davis has considerable talent as a writer of fiction, while her unique position lends an added interest to her work.

### The Telephone In Sweden.

Sweden's state telephone is soon to be connected with the state telegraph. Instead of addresses the telephone numbers will be used, the telegraph clerks looking up the address. Messages may be telephoned to the telegraph office and telephoned back, thus dispensing with the greater number of the messenger boys, as in Sweden nearly every one uses the telephone.

#### For a University at Marseilles. Marseilles wishes to have a university

of its own, like Lyons and Bordeaux. and suggests that the faculty of letters at Aix, near by, be transferred to it, as at Aix there are but three students outside of those holding state scholarships. Arizona is young, but she knows how to

#### CONNECTICUT LIQUOR LAWS.

August first the liquor laws passed by he last Connecticut legislature take effect n that state. It is understood that the emperance elements of that state have ttained an advantage in their passage. What their final effect is to be is not yet inderstood, but the sellers of stimulants at present feel much uncertainty as to their ights and liabilities. In the fight for high icense made by the temperance advocates tot much of success was achieved, the fee seing only raised from \$400 to \$450, and his only in cities. In towns of over 3,000 nhabitants the fee is \$250. In smaller owns the hotel license is left discretiontry with the county commissioners, but annot be less than \$150. Another change nade by the present law is to leave a ralue under execution to an unexpired icense. Previously this had no value unier attachment; now the unexpired time can be used by the attacher, or can be told at appraisement by the county comnissioners. Under the new law no liquor an be given away in any saloon at times when its sale is unlawful; nor can any ninor obtain liquor without liability to ine and imprisonment. The laws for the tearch for liquors have been widened, and, in the whole, the censorship of liquor elling in Connecticut has been greatly uided by the legislation of the legislature of the legislative session just closed.

#### THE CUBAN REVOLT.

Insurrections in Cuba are frequent. They have heretofore been futile. But the pitcher that goes often to the founmin, in the end becomes broken, accordng to the wisdom of the scriptures. And to the Spanish power in Cuba, in the end, may fail. The friends of Cuban independence at the present are very much enouraged. The fact that the first Spanish couraged. The fact that the first Spanish one of the places visited. They reserve has been called out, affords returned to South Williamstown grounds for expectancy. In previous repellions this has been in late recourse ther ten years of contention. Besides the Spanish loan is being slowly taken, several years, but his companions were The number of Spanish troops is less than in previous contentions. There is no equitable consideration why ('uba should on ruled by Spain. In the end it will not he. Whether the present revolt shall sucreed is yet to be determined, but, in the end, Spanish dominion will cease in

After twenty years service the patrolman may be retired upon half pay, and after twenty-five years he must be so retired upon his own application. At present there are 157 openings for the position of natrolman. The latest development in the varied career of John L. Sullivan, the pugilist, is his becoming the proprietor of a road house on Brighton Road near Boston. He is to apply for a license, with prospects of getting one. If Sullivan could save his money he might easily be well-to-do, for he is still the admiration of a large public, but he is naturally free-handed, and, in his cups, lavish, and has squandered upon parasites his large gains. He will doubtless die poor, and in neglect. This seems to be the fate of the men of

The New York botanical garden, which has been so long projected, is about to be begun upon, 250 acres having just been selected for its site in Broux park. An act of 1894 provides an apportionment of \$500,000 for this expense, provided \$250,000 shall have been previously raised by private means, which fund has already been provided: and is in the charge of J. Pierpont Morgan. The site is one of much natural beauty and the resultant garden will undoubtedly be most complete and charm-

The Mechanic squad of the New York police department, consisted of six patrolmen who were employed to do mechanic work in the police department. To maintain them cost 8400° a year. As the work they accomplished can be procured for \$2500 a year, Commissioner Grant, son of President Grant, has abolished their special function, and they become ordinary patrolmen, and ordinary mechanics will be employed as needed.

The Panama Ship canal has already cos \$290,000,000. It is estimated that \$100,000,-600 farther expenditure can complete it, and a present interest is awakening to that end. But the Nicaragua canal can be completed, it is estimated by accredited judgment, for \$65,000,000, and can be anerated by tolls for transit much less than would pay an interest on the total ama caral will cost.

John Kuntz, just committed from Peeks-kill, N. Y., to the county jail, has claims to recognition as the champion tramp. Two years ago he started from Oklahoma and tramped thereafter to New York, barring a detention of four months in Peorla, Ill., for stealing a bologna sausage. He had been confined in thirty-two jails, and had not changed his shirt for four

The sugar planters of Louisiana, through the congressional delegation of that state, are trying to get from Secretary Carlisle the \$5,000,000 bounty granted them by congress. If they fail the state is promised to go Republican. The first comptroiler of the treasury, a Mr. Bowker, has the right to withhold the appropriation, and no government official can override his pleasure in that matter.

The armored cruiser Brooklyn, sister to the New York, will be launched from the ways of the Cramps' shippard in about two weeks. It is designed to have a speed of at least twenty knots, will have a displacement of 8150 tons, will be 400 feet long on the water line, with a draught of twenty-four teet, with engines of 16000 horse-power, and will cost \$2,986,000.

The new law in New York, prohibiting shaving and other tonsorial arts on Sunday, has been irksome to the laity, and various evasions have been attempted. The latest has developed at Patchogues, L. I., where a social club has been incorporated by those who dislike to shave themselves.

The sea serpent turns out, as always, to be something else. In the present instance it is a partial skinned python, dropped from the steamship Macduff, a portion of consignment from Singapore, which died in transit, and was thrown overboard in Long Island sound.

There is on the face of it no unseemly haste in the action of James Martin of Wilmington, Del., who brings complaint against a neighbor's dog for annoying barking, continued, the complaint avers, for thirteen years.

### PLEASANT VACATION TRIP.

Three Members of a New York Wheel

Club in Town Yesterday. Horace U. Young, Walter H. Smith and Benjamin T. Burton of New York were in town a short time yesterday. They are out on a vacation of one week and are making the trip on their wheels. They left New York Sunday morning at 7 o'clock and rode to Danbury, Conn., that day, a distance of eighty miles. The roads were not very good and Mr. Smith had the misfortune to break a pedal, which compelled him to ride with only one pedal from Coscob to Stamtord, Conn., eighteen miles, Monday was spent in Danbury, where some of the hat factories were visited, and Tuesday morning the wheelmen proceeded on their journey northward, reaching Great Barrington at night. They stayed over night at Kennedy's hotel and left Wednesday morning at 9 o'clock, took dinner in Pittsfield and reached South Williamstown, Mr. Young's former home, at about 3 o'clock in the afternoon. Yesterday they wheeled to this town and spent several hours looking about, the Sampson shoe factory being at night. Mr. Young was, of course, on familiar ground, although he at night. had not been in North Adams before for strangers here. They were pleased with the evidences of prosperity and with the beauty of the country. All spoke highly

of the roads in this state, pronouncing them far superior to any they traveled in NewYork or Connecticut on the way here. The were delighted with the road from Great Barrington to Pittsfield, which they found one of the best on which they had traveled anywhere. These wheelmen are out for pleasure and are enjoying their tour to the utmost. Incidentally they are doing something in the way of advertising the Palmer bicycle tire and bringidg it to the notice of dealers, and for this purpose they called at the Berkshire cycle works and had a pleasant chat with the new proprietor, Mr. Hubbard. They will leave South Williamstown today or tomorrow and go to Troy. N. Y., via Hancock, Stephentown and Sand lake, and go by steamboat from Troy to New York Sunday night,

### A SERIOUS ACCIDENT.

An Old Lady Breaks Her Hip. Met a Similar Accident Before.

Mrs. Felis McElroy, about 70 years or ige, one of the best known women in town, fell down stairs at the home of her daughter, Mrs. J. Doyle of Furnace street, yesterday afternoon and her right hip was broken. Her home is on Lincoln street and she had gone to visit her daughter. She was not intimately acquainted with her daughter's house and opened a door and stepped through it, thinking she was going into the hall. It was the cellar door she opened and she fell to the foot of the stairs She was removed to a comfortable place as fast as possible and Dr. O. J. Brown called. He found that the hip was broken and there were bad scalp wounds. Such an accident to so old a lady is a serious matter and excites the sympathy of friends. About five years ago Mrs. McElroy met with a similar accident and her left hip was broken. That accident was almost the cause of her

The use of shavings for bedding is endorsed by some of the greatest stable owners, among them being Governor Morton of New York. The price of shavings is about half that of straw and the shavings make a superior

fertilizer. -The fresh air children enjoyed an excursion through Hoosac Tunnel this afternoon. It was thought by the committee who have had charge of the children's coming, that it would be a nice thing to have the children go through the tunnel as it might be the last time in their lives they would have the opportunity. A commendable generosity was shown in

providing the excursion.

-One of these days, or perhaps one of these nights, the people will call for more lights on Main street. The street is comfortably lighted when the stores are open, but when they are closed, as most of them are four nights in the week, the street is not lighted, at least in some places, as the principal street in a town of this size should be. The stretch between Bank and Eagle streets should have one more light at least, that section being by no means as well lighted as it should be when the stores are closed.

-The executive committee of the Father Mathew diocesan field day held an important meeting last night. The reception and invitation committee reported and showed that the invitations were being generally accepted. The reception committee has already a large number to provide for, who will arrive Sunday even-The arrangements are nearing completion and there is no doubt, but the day will bring to this town a gathering it has no conception of.

The doctor at first was disinclined to attempt crow surgery, but when instructed to either cure the crow or kil it he concluded to try his skill on the bird. The crow showed fight and the doctor had not had him on the operating table long before he found it necessary to seal up the birds beak with sticking plaster. The broken leg was then adjusted and encased in a plaster cast, and from that time the bird has been steadily bracing up. He was left in the doctor's care till last night, when he was taken home, and the chances seem to be that he will soon be al! right again.

The statement that the crew was merci-lessly overtrained is a sufficient explanation for the failure and points out one of the dangers of the craze for athletics. Pittsburg Dispatch.

Green's block, last evening, and consider- day. A full complement of them and able important business was done. The other take advantage of the outing toquestion of whether chairs or pews should be used for seating, was discussed at length and finally resulted in the adoption of the pew system. The rear part of the church which is built from the frame of the old structure, will be repaired. The old ceiling is to be taken out and a higher one put in, new windows will be put in the west side and this part will be finished inside the same as the new portion,

Over \$1000 has been subscribed for the organ and it was voted last night to place an order for a fine pipe instrument at once. The building committee will have charge of the seating, organ, carpets and repairs.

Concert and Banquet.

The St. Jean Baptiste society met at their hall last evening and voted to hold a public opening of the place on Friday evening, August 15. Brothers' orchestra is to furnish a concert and afterwards there will be supper, speeches, songs, etc. It is expected that the St. Jeans and Franco-Americans of North Adams will be present. There are to be extensive interior repairs soon, comprising new floors, one of which will be of marble, allowing its use for dancing purposes.

A Case of Epilepsy.

William Hutchison, a clean, respectable looking man, about twenty-four years of age, had a fit of epilepsy near the Beckshire mills last niglit.

Hutchinson is from New Bedford and eft that city at 5.30 o'clock yesterday to come here for work. He had besides his ticket, over eleven dollars in his pocket. In the depot in Boston he was taken weak and a man who was with him stole the money, leaving him with not a single copper. Hutchinson came through DIAMONDS WILL SELL to North Adams and walked from there to this town. He had nothing to eat during the whole of vectorday, except a few ing the whole of yesterday, except a few green apples he picked on the way from North Adams and it is probable that which induced the fit. He was asked why he did not ask somebody for something to

eat and he said he did not like to. He was standing at the Hoose street corner, near the flume, about 8 o'clock last night, when the bystanders saw him twist and fall. They picked up the man and he was frothing at the mouth. Dr. Descharmes was called at once and gave him assistance. The man was taken to the lockup and made as comfortable as possible and Dr. Boom attended him. When coming out of the fit, Hutchinson talked rationally. Two men stayed with him all night and he was very comfortable.

This morning he was taken to the town farm, where he will remain until fully re-Hutchiuson says his first epileptic fit occurred two years ago and was caused by fright. He was on a railroad bridge when two trains came, one each way. He could not get away and lay down in terror. It happened that the train on the track where he was, was switching and stopped before it reached him. He says that when in a fit he can see engines and they run

### HUGH O'BRIEN DEAD.

Served Beyon Terms as Alderman and Four as Mayor of Boston.

BOSTON, Aug. 2. - Ex-Mayor Hugh O'Brien died vesterday at the home of his son, Rev. James O'Brien, in Somerville. He had been ailing for several days, but was not thought to be in a serious condition. He was just preparing to go out for a short walk when his death oc-curred. His son was with him at the time, but he passed away before medical assistance could be summoned. It is thought that his sudden death was due to heart failure.

HUGH O'BRIEN.

Mr. O'Brien was born in Ireland, July

 18, 1827, but came to Boston with his parents when 5 years old.
 Educated in Boston public schools, he in early life became a printer. His first wife, Catherine Shea, died 39 years ago, leaving four children—Eav. Father James O'Brien, T. Carl and the Misses Minule J. and Gerirule, who survive him. His sec-ond wife, Miss Edizabeth Clinton before she married Ambrese Thayer, also survives him, as do their two children-Miss Madeline and Honry C. O'Brien.

His first public position was as alderman; he served as such eight years, and was four years chairman of the board. He became mayor in 1885; served four successive years, and was the first citizen of Irish birth ever elected to that position. His last public position was as chairman of board of survey under Mayor Mai thews. A public-spirited citizen, prominent in business life, he identified himself with many municipal reforms, and was the father of the Hub's public park

One of the Worth steries that received redence a few years ago in the American colony in Paris was to the effect that a cartain rich person went to him with a quantity of almost priceless lace to be used on a gown she desired to wear at a grand wedding. The dress came home in due season, and then the lady observed a season, and then the lady losserved a change in the disposition of the lace that by no means pleased her. She could scarcely believe her own senses, and call-ed in a friend, who accompanied her at the final trying on, she left it to her if the lace did not seem scant and quite different from its original arrangement. Assuredly. What could be the matter? In all haste the two women rushed off to interviow the great man, only to be told he proferred the trimming as it was and should not after it! "But I had more lace than you have put on, Mr. Worth!" exclaimed the owner "There were five"— "Madame," interrupted the autocrat, "is not this dress be autiful". And that was all And that was all the satisfaction the lady ever received. She threatened to go to law, but was deterred by the advice of friends, who knew the dangers of invoking French justice where a question of dressmalting was concerned.
Mr. Worth professed to have unbounded love for antique laces, and it is surmised

#### Prospective Police Picked Out by the A. P. A.

Governor Holcomb Publicly States His Position in the Matter.

OMAHA, Aug. 2.—The police are in pos-

session of city property, armed with pick handles, to resist any effort made under the new regime. The A. P. A.'s plans have already been decided upon Johany McDonald is slated for chief of police, ex-Sergeant Shoup is given an office in the new make-up, and all of the policemen who were recently dis-missed for the good of the service will be reinstated, with two exceptions. It is also said that when the new board calls upon the present police force to obey the new chief that at least 17 members will respond to the call. Mayor Bennis, when asked what had

prompted him to issue a riot proclama-tion yesterday afternoon, said it was merely a precautionary measure adopted to prevent bloodshed. He said nothing had occurred in the nature of a disorder); act or demonstration so far on the streets but from what he had read in the news papers it was necessary to put the people on guard against a probable riot. Chief of Police White, when asked why he had a reserve force of police at the headquarters and the official police alarm

operators guarded, said: "There has been a great deal of inflammatory talk upon the streets and there have been inflammatory articles printed, and in the event of trouble I want men on hand to meprass it I do not expect any trouble, one if there should be. I have the men to sup press it, and enforce the law."

Editor John C Thompson, of The

American, the A. P. A. organ, rec ived the following dispatch yesterday morning: CHICAGO, Aug. 1. We can formed 510) armed men to put down lawbreakers in your city at a moment's no tice.

J. W. Dixon

No explanation of the dispatch could be made by those who would naturally be in a position to know regarding its authen ticity and genuineness.

During the day there was no assemblage of persons on any of the streets, either with or without riotous or disor-

derly conduct. In fact, the city was quite

free from gatherings of crowds. Where the Hitch May Come. The conflict of authority, if it occurs at all, will take place after the formally legal demand has been made by the incoming board for recognition at the hands of the police department. The governor refused to meet Attorney General Churchill and Commissioner Russell yesterday afternoor for the purpose of appointing the police

justification of his

commissioners, and in justification course made public this statement:

GENTLEMEN—Yours of present date calling attention to chapter 10 of the act of 1895, relating to the appearment of fire and police boards in others of metropolitan class, and to the provisions of such not, is before me.

You request that said board be convened at the prov. sons of such act, is before me.

You request that said board be convoned at the office of the governor Aug. 1, 1895, at 4 o'clock, p. m., of said day, to select three citizens to act as members of the fire and police commission of the city of Omaha under the provisions of said act. Parmit me to say in reply that 1 have considered the provisions of the net to which you have called attention, providing that this appointment shall be made within 30 days after the passage of the act.

You say "This phrase doubtless would be construed to mean 30 days from and after it took effect!" The act is not to take effect until Aug. 1, 1805, under the generally accepted construction of the constitutional provisions governing the time when acts shall take effect when passed without the emergency clause by the last legislature have been treated as not taking effect until Aug. I of this year. Therefore, under the provision of the act in question, 30 days' time remains in which this appointment may be made.

In order that there may be no undue haste In order that there may be no under hast or seeming desire to precipitate trouble, and in view of the doubtful validity of this act, I do not deem it my duty nor consistent with the maintenance of peace and gool order to make such hasty and precipitate action relative to the appointment of a new board. I, therefore, the constitution of the cons as chairman, decline to call the meeting to tomorrow as requested, or to participate at the time suggested in the appointment of a board of fire and poince commissioners under the provisious of the act referred to.

#### Churchill and Bussell declared that if the governor refused to meet them to morrow they would appoint the commis-sion and let them use force to secure the city property.

When the horses scored for the first heat, Directly had the pole, but soon after the start Robert J forged to the front, setting the pace for his competitors. and leading them to the wire. In the second heat Joe Patchen went to the front and won, as he did in the two remaining heats, with ease. Robert J was fairly beaten in as pretty a race as was ever seen the time of the four heats being the fastest ever paced consecutively in a race, the average being a trifle more than 2m. 41/s.

Seth Rowe Not Likely to Soon Forget His Unpleasant Experience.

Many Days of Aimless Wandering About.

Rescued by Friends Just In Time to Save Him Frem Death.

BANGOR, Me., Ang. 2.—Seth Rowe of Oldtown, who mysteriously disappeared last Saturday afternoon while on a blueberrying trip at the Costigan bog, has at last been found, after large parties had searched for him night and day ever since his disappearance.

He was found in the woods about half a mile from Sunkhaze stream, near Costi-gan, alive and well. Mr. Lamb and Mr. Adams, who found him, took him to Costigan in a cance.

Mr. Rowe states that when his com-panious left him to return to their carriage for dinner on Saturday, he went on pick-ing blueberries and walked away a little

Some time later he shouted to his companions, but received no reply. He then started to return to the place where he left his friends. He walked about for some time, and finally came to the conclusion

that he was

Lost In the Woods.

The longer he walked the more confused he became, and finally became so hopelessly mixed up that he had not the faintest idea as to where he was. All his shouts and outcries were unanswered, and in a little while it became dark. He picked a few blueberries to eat, and drank

water from the streams.

Saturday night, his first night in the woods, there came up a fearful shower. Lightning struck a tree only a short disance away, and splintered it down to the ground. He was much affected by the

Sunday morning he resumed his tramping about, but he found nothing but dense woods and a bog, and the longer he tramped the more discouraged he became. All he had to live upon were blueberries and water. At night be got under a tree

and covered himself with bark. To make a long story short, he wandered by day and slept as comfortable as possible by night, and so it went on for six days and five nights, until he

Had Given Up All Hope

of being able to reach civilization again. Yesterday forenoon he transped about for a time, and about noon he was com-pletely broken down in spirit and body, and laid down to die.

In the afternoon two men of the search-

ing party, Adams and Lamb, found Rowo under a heap of bark at the foot of a tree. Rowe was conscious and was able trecognize his friends, although very west. They carried him safely out of the woods to a stream, where he was paid a down to Costigan and from there take: home by train to Oldtown. The meeting with his family was very affecting. It was found that Rowe had in his wan-

derings been walking around in a circle three or four miles in circumference. At no time was he more than a mile of two from his friends, who had here earthing for him ever since last Satur-

Attack With Fists, Feet and Teeth.

Boston, Aug. 2.—Tony Bolendo and his wife occupy the house 75 Pitt street, Brighton.. Bolendo came home yesterday somewhat intoxicated and very ugly, it is said. His wife was out in a fleid picking peas, and Tony, in a matter-of-fact tone, informed her he was going to kill her. He, it is alleged, thre wher down, kicked her three times and struck her, and then he jumped on her and bit off her nose. Her cries attracted the neighbors, who ran to her rescue. Mrs. Bolendo is in a delicate condition, and the lock to her system, combined with the wounds inflicted, may prove sufficient to cause her death. Bolendo was arrested.

The Progressive Age.

HAVERHILL, Mass., Aug. 2.—Incorpora-tors of the Haverhill, Georgetown and Danvers Street Railroad company effected a temporary organization yesterday. It was announced that \$50,000 of stock had atready been subscribed, with \$30,000 more assured. The cost of building the road is estimated at \$250,000, and it will be 17 miles long and will connect with the Lynn and Boston railroad at Danvers, thus giving a through line between Haverhill and Boston.

A Long Name.

BOSTON, Aug. 2.-At the last day of the colored women's conference it was decided that the name of the organization should be "The National Federation of Afro-American Women." These officers were elected: 'President, Mrs. B. T. Washington; vice president. Mrs. P. T. Mahammett; recording secretary, Mrs. F. R. Ridley; corresponding secretary, Miss L. C. Carter; treasurer, Mrs. L. C. Anthony.

Boys Rescued From Death.

NEWBURYPORT, Mass., Aug. 2.—While swimming in the river here yesterday afternoon, three boys, Arthur Caldwell, Allen Bradshaw and Harry Horne, the latter of Boston, narrowly escaped drowning, They had sunk once, when two men res-ened them in an exhausted condition. A fourth boy, named Harriman, fell from Shaw's wharf. Edward Johnson suc-ceeded in landing him on shors. Another boy, 15 years old, fell from the Boston and Maine railroad bridge into the river. He struck a ledge of rocks and severely cut his head. He was rescued in an unconscious condition.

About Time.

Lowett, Mass., Aug. 2.—The deadlock which has existed in the city government since Jan. 1 was broken last night, and Charles F. Coburn was elected city trees urer and Girard T. Dadnum city clerk. This election was made possible by the

action of Councilman Delehanty, who broke from the Democratic ranks and voted with the Republicans.

To Work Swift River Mine.

PORTLAND, Me., Aug. 2.—A prominent Portland man owns a tract of land in the town of Byron, on which is situated the Swift river gold mine. Hitherto the land has been used as a lumber region, but now it is thought that gold is abundant enough to pay for working the mine. A stock com-pany is to be formed, and the mine is to be worked for all it is worth.

Holmes Gives Flimsy Excuses For Presence of Bones In His Castle.

Says Minnie Williams Is a Fugitive From Justice.

Glib Statements Regarding Other Persons With Whom He Has Dealt.

PHILADELPHIA, Aug. 2. - Holmes has made another statement regarding the latest developments in the series of murders with which he is accused. "The Chicago officials," he said, "may claim that I am responsible for the deaths of Minnie Williams, Emily Cigrand and Mrs. Connor and little Julia, but I can show con-clusively that these people have not and could not have been done away with by

When asked to explain the discovery of the bones in his Chicago home, he said: "I will answer that question in this way. Every person who has known me is aware I am a doctor by profession. It is also known perfectly well in Chicago that there was a restaurant in my building, 701 Wallace street, during the World's fair. At that time there were lots of bones from fowls and other cooked animals thrown outside the building. Lots of these bones, no doubt, found their way to the cellar. During the time I lived in the building I brought several cadavers there for scientific and pecuniary purposes. This may account for the bones the Chicago police say they have found."

In speaking of the Emeline Cigrand mystery, he said: "I employed Emeline Cigrand in May, 1833, as a typewriter. I engaged her from one of the regular Chicago typewriting bureaus. She remained in my employ until October, 1893. She was a good and virtuous girl, as far as I know. A respectable business man, and a personal friend of mine, knows that the girl was alive and well one year after she left my employ. If she is dead, she has gone to heaven.

Sympathy For Quinlan. Continuing, Holmes said: "I regard Pat Quinlan, my former janitor, in the light of being persecuted. I pity his un-fortunate position. The treatment of Pat by the detectives in Chicago is unjust. He has nothing to confess. This I declare positively.1

He then took up and discussed as follows the disappearance of Mrs. Connor, Minnie Williams, the Pitzel children, B. F. Pitzel and Ed Hatch. "Mrs. Connor I knew little of. She and

her husband rented rooms from me. I believe she had trouble with her husband.
She left my place. I had no interest in keeping track of her afterward. The charge of marder is groundless. There could have been no motive for me to in-

Minnie Williams a Murderess. "Minnie Williams, the poor girl, was my best friend. She was unfortunate in

more ways than one. I cannot believe that she is still alive. God only knows where she is, as she is a fugitive from justice on account of the awful tragedy which resulted in the killing of her sister, Nana." Here Holmes gave a graphic description of the killing of Nana Williams by her sister. He spoke of other troubles that Minnie became involved in in Indiana, He reiterated several times that the girl was his "best friend," and spoke of her in

"As to the finding of the bodies in Torento, I do not know that the bodies are those of the Pitzel children. As I have said before, they may or may not be. I can prove at the proper time that they left my hands safely. I gave them into the charge of Ed Hatch. I never saw them

Howard Left With Hatch, "If Howard Pitzel has met with foul play-his body, T believe, can be found somewhere between Detroit and Indianapolis. Likely at some of the junction points between the two stations. Most

probably at Logansport, Ind.
"I left Howard Pitzel in charge of Ed Hatch on or about Oct. 10 last. This was at Indianapolis. I was called to Chicago on important business. I can show that I was in Chicago until the afternoon of the 11th. By prior arrangement I met Hatch 1000 at Coney Island. In Detroit on the night of the 11th. I met Comptroller Eckles says the article in him at the deput, but the boy was not with him. I inquired where the child was, and Hatch told me that he left Howard

with Minnie Williams. I thought the Elder Pitzel Killed Himself.

"I have said, emphatically, and I again declare, that Benjamin F. Pitzel took his own life. Ben was quarrelsome when drunk, and on several occasions threat ened to take my life. If I had killed him at that time in my own defense I would have been justified. As it is, however, his death occurred in a way which leaves me

"Ed Hatch I hardly think is in prison. If he was, I would have known of it before now. All I can say in connection with Hatch is that he was engaged with me in some of my business enterprises. It is for the police authorities to find him if they can. I am pretty confident they will not find him in prison

Not Crazy. When asked if there was insanity in his when asked if there was insanity in his family, Holmes said that he had an uncle who died insone near Burlington, Vt. He says this disease is inherited. Holmes added: "I am still compos mentis, although, in view of the absurd reports that have gone about me, it might be a ques-tion as to whether I or my accusers are

The alleged murderer claims that he is worth in the neighborhood of \$200,000, and would have no difficulty in raising that amount if he was out of prison. He gives a disconnected account of his swin-dling operations, but admits that he bilked a number of large companies Holmes ridicules the idea that he convicted of murder, and says: "It would be just as hard to prove me guilty of murder as it is to prove the moon is made of

STILL UNEASY. Idaho Settlers Said to Be In Fear of Attack

by the ladians. ST ANTHONY, Ida., Aug. 2.-The peo ple of this and surrounding towns are still very much excited over the Indian scare, and almost every hour brings fresh rumors A young man named Paul came into fown Tuesday night and declared that another band of Indians, with squaws and pappooses, were making their way toward the hole, a few miles north of this town On the strength of this, Baxter Hopkins left immediately on horseback for the pur-pose of verifying the report. He went as far north as Marysvale, 20 miles, and there found the settlers in a state of wild excite

ment.
It is said the settlers have organized themselves, and are now making every precention for their own safety. Guards are out by day and night. Indians have been seen in the vicinity of Marysvale for two or three days past, and five white men were detailed to ascertain what the Indians were doing. The understanding between the new west that they ment ing between the men was that they meet at a certain calm in the vicinity at an appointed time. When the men approached the cabin they noticed a number of Indians surrounding it, who at once commenced firing. Three of the men re turned to Marysvale, but one Wilson and Captain Harris have not, as yet, returned, and it is feared that their lives have been
